

Cats take enough risks on their own.

*Why add adjuvanted
vaccines to the list?*

FEATURE:

PUREVAX® provides safe, pure, proven protection.

»BENEFIT:

The modified-live and recombinant technologies found in PUREVAX vaccines:

- Provide rapid protection^{1,2}
- Deliver targeted protection without the use of adjuvants^{1,2}
- Stimulate a balanced immune response involving cell-mediated and humoral (antibody) responses^{1,2}

FEATURE:

PUREVAX RECOMBINANT vaccines use canarypox-vectored technology.

»BENEFIT:

Canarypox-vectored vaccines contain only a portion of the genetic material of a pathogen, not the complete pathogenic organism. Therefore there is no potential reversion to virulence.

FEATURE:

The only complete line of nonadjuvanted feline vaccines.

»BENEFIT:

PUREVAX vaccines provide protection and reduce the potential risks associated with adjuvants, including:

- Injection site reaction^{1,3}
- Injection site granuloma³
- Chronic inflammation³

PURE, PROVEN PROTECTION

CUSTOMER SATISFACTION GUARANTEE

FELINE GUARANTEE

We are committed to supporting the use of nonadjuvanted vaccines in feline patients, throughout their life. We understand, however, that patients sometimes move, or are otherwise lost to observation, making it impossible to verify their complete vaccination history. Our PUREVAX® Guarantee* therefore falls into three tiers:

Diagnosis		In the event that a cat is definitively diagnosed with an injection-site sarcoma:		
Guarantee Tier	Tier 1	Tier 2	Tier 3	
Criteria	AND if that feline patient has been exclusively vaccinated with PUREVAX nonadjuvanted feline vaccines over its entire lifetime,	AND if that feline patient has been exclusively vaccinated with PUREVAX during the most recent 5 years of their life,	AND if that feline patient's LAST vaccination was with a PUREVAX nonadjuvanted feline vaccine but the patient does not otherwise have a documented history of PUREVAX-only vaccination,	
Support	We will support standard and reasonable diagnostic and treatment costs up to \$5,000.	We will support standard and reasonable diagnostic and treatment costs up to \$3,000.	We will support standard and reasonable diagnostic and treatment costs up to \$1,500.	

*Visit BI-connect.com or contact a Boehringer Ingelheim Customer Care Representative at 1-888-637-4251 for complete details about the Customer Satisfaction Guarantee.

CHECK-OFF & ECHO NOTES

Review the Issue with Your Practice Team

An adjuvant is a substance that is added to a vaccine to enhance the body's immune response to the vaccine. Adjuvants have been associated with injection site reaction, injection site granuloma, and chronic inflammation in cats.^{2,4}

⁴Greene CE, Levy JK. Immunoprophylaxis. In: Greene CE, ed. *Infectious Diseases of the Dog and Cat*. 4th ed. St. Louis, MO: Elsevier Saunders;2012:1184-1188.

State the Solution

PUREVAX® is the only complete line of nonadjuvanted feline vaccines, offering a variety of convenient combinations. By using PUREVAX vaccines we can reduce the potential risks associated with adjuvants.

Make Your Recommendation

I am recommending PUREVAX vaccines for all of our feline patients. Do you have any questions?
