

probios® Intelliflora®

Better off with Probios

Feature:

More effective than the leading brand – Probios Intelliflora uses **four** beneficial strains versus **one** and contains twice as many “good bacteria”.

Benefit:

Helps maintain normal intestinal tract and immune system health, as well as restore a balanced tummy during times like travel or boarding.

Feature:

Manufactured in an SQF Level 3 Edition 7.2 facility in the U.S.A.

Benefit:

Pet owners can be assured that these antibiotic-free supplements are not only beneficial for their dog or cat's health, but are made according to strict quality and safety guidelines.

Feature:

Packaged in 1 gm sachets for daily use

Benefit:

It's easy and convenient to give your dog or cat Probios Intelliflora every day by simply sprinkling the contents of one packet over their food.

Probios® 10-Day Challenge

Score a perfect 10 with Probios® Intelliflora®—

A daily probiotic powder supplement designed to help support gastrointestinal health and normal immune system function in dogs and cats, as well as restore a balanced tummy during times like travel or boarding.

Tell your pet parents to take the FREE Probios Intelliflora 10-Day Challenge. Not only will their dogs and cats benefit from healthier skin, a shinier coat, regular stools and balanced energy – but the pet parents will see the benefits, too! Eligible participants will receive:

- A FREE 30-day supply of Probios Intelliflora
- Entered to win one of 10 prizes of \$100

How to enter the Probios Intelliflora 10-Day Challenge

- Sign up by visiting www.probioschallenge.com
- Complete the email survey after the ten-day trial period
- Use Probios Intelliflora every day for 10 days
- Be entered to win one of ten \$100 prizes

10 prizes will be awarded!

Sound CHECK-OFF & ECHO NOTES Byte

Start an Effective Vet-to-Pet Owner Conversation

If engaging in an initial diagnosis, start with:

"Ms. Jones, my exam revealed that your pet has irregular stools and frequently passes gas."

State the Solution

"Probios Intelliflora contains 200 million "viable" colony forming units (CFU) of four strains of "good bacteria" to help maintain your pet's gut and immune system health. It can also help balance his or her tummy during stressful times, like traveling or boarding."

Make Your Recommendation

"I believe Probios Intelliflora can be an important tool for managing gut health for your pets. It can help you manage their gastrointestinal health and immune system function. Do you have any questions?"
